THE CHALLENGE

ConAgra Foods needed an automation solution – and it needed it fast. The company’s Greenfield plant needed to get online as quickly as possible, but myriad issues made it a challenge to tackle in-house.

- Lack of controls standards
- Integrating equipment from multiple OEMs
- Limited in-house resources
- Aggressive schedule to bring new facility online

THE SOLUTION

With Concept Systems, ConAgra found its solution. Concept helped the company establish key standards, gain actionable insight, and much more.

- Project was on time and below budget
- Plant-wide standards created
- Intuitive system and simulation tools reduced operator training time, cost
- Integrated production intelligence offers insight into real-time data
WORKING WITH US

Our engineers stay apprised of a wide range of existing technologies from multiple companies. That way, we can guide our customers to the systems that best suit their situation – and integrate multiple systems when necessary, including your plant’s existing equipment.

CORE VALUES AND STANDARDS:

- Engineers who stay up to date with a wide range of existing technologies
- A commitment to guiding you toward the perfect solution for your vision
- Project methodology centered on on-time, on-budget, expectation-exceeding results
